Experience

AsthmaTuner - UX/UI Designer

Sep 2020 - Present Stockholm, Sweden & Remote

Leading and supporting UX research and design for the AsthmaTuner mobile app and physician web portal. Collaborating with other designers, PM, healthcare stakeholders, and the software development team to deliver an effective yet delightful asthma care experience.

AsthmaTuner - UX/UI Intern

Mar 2020 - Aug 2020 Stockholm, Sweden & Remote

Led the design of a feature educating users about asthma treatment, facilitated development handoff of a web portal UI redesign, identified and addressed actionable insights from user feedback, and supported in rebranding (ongoing).

Bose - Software Engineering Intern

Jun 2019 - Aug 2019 Boston, USA

Designed and implemented a host application in C to support product demo configuration, created engineering and marketing data analytics dashboards with MySQL, and managed cross-collaboration with engineering teams across multiple disciplines.

Education

KTH Royal Institute of Technology - MS, Human-computer Interaction

2019 - 2021 Stockholm, Sweden

Performed thesis study on persuasive design in motivating adherence to pediatric, digital, asthma care.

KTH Royal Institute of Technology - BS, Computer and Information Sciences

2016 - 2019 Stockholm, Sweden
